NEEA Webinar Highlighting Commercial Building Stock Assessment Results -

Please join NEEA on Wednesday, July 16 from 2:00 p.m. to 3:30 p.m. Pacific for a presentation highlighting the results of the 2012-2014 Commercial Building Stock Assessment (CBSA).

The CBSA represents the largest commercial building data collection project conducted in the United States to date. This session will mark the culmination of considerable work throughout the region over the past two years, including NEEA, Bonneville Power Administration, Energy Trust of Oregon and countless staff from our utility partners, whose help made this effort possible. Come hear Navigant Consulting, present information related to the work undertaken in the planning and execution of the CBSA, including:

High level results of the commercial building stock, based on hundreds of assessments within the past year;

Relevance of this study to energy efficiency in the region going forward; and

A retrospective of lessons learned, plus major recommendations for the next CBSA.

You may access the webinar at this link at the time of the event:

General

Seeking Public Comment on BPA's Post-2011 Review Proposal - Comment Period Ends July 19 -

BPA is seeking public review and [comment](#) on the [Proposed Revisions to the BPA Energy Efficiency Post-2011 Implementation Program](#) (Proposed Revisions). The comment period closes July 19, 2014. The proposal is closely based on [workgroup recommendations](#). After considering the public comments, BPA will make a final decision, update the Implementation Program, and prepare for the implementation of the changes, including updating the Implementation Manual.

Weatherization Photos added to BPA's Stock Photo Library -

In an ongoing effort to provide effective imagery for our customers to use in their energy efficiency marketing and communication material BPA has added a suite of weatherization images to our stock photo library. As with all the images BPA provides in this library, these pictures can be used without cost or restriction by our customers and their partners to promote their energy efficiency programs. These images can be found on BPA's [Stock Photo Library](#) web page.
